The story behind Kevala

Kevala produces handmade ceramic stoneware. Each piece is crafted as a thoughtful statement of contemporary design, realized through the heart and hands of their skilled artisans. Kevala is Sanskrit, meaning perfect, whole, and complete. And it's this simple idea that dictates the design philosophy behind all the ceramics this studio produces. Kevala designs specifically for high-end restaurants, the individual pieces can be tailored to meet specific presentation needs.

Kevala allows chefs to bring their creativity to the way they serve their delicious culinary creations.

Wendy: 'We have been making handcrafted ceramics for some of the world's top restaurants for the past 25 years. We understand that chefs want understated designs that showcase their culinary creations – where the food is the star, not the serving plate.'

WARNING!

The plates have a volcanic glaze. Piling, bumping or hard pressure of objects can possibly result in the release of volcanic glaze flakes. Always check before use whether the plates are free of flakes. Due to possible health risks, these flakes are not fit for human consumption. Volcanic glazing is purely decorative and is not meant to be eaten from or to cut on its surface. Do not serve meals on the surface on which the volcanic glazing is. Washing and cleaning of these plates should ideally be done in an industrial dish washing machine.

The story behind RBC

RBC perceives design as an expression to communicate the story behind our uniquely handcrafted approach to transform humble stoneware clay into novelty tableware. Our philosophy is that all of our ceramics have to reflect true passion for design and to be different. We have been working with some of the best Michelin starred chefs and top hotels from around the world for the past 29 years.

We understand that chefs want to have something different for presenting their creations and to keep exploring their creativity beyond the boundaries of normative food presentation. This idea of bringing the food industry to the next level is boldly underlined in our new collection that we have designed.
